

# IT CLOUD SKILLS GAP

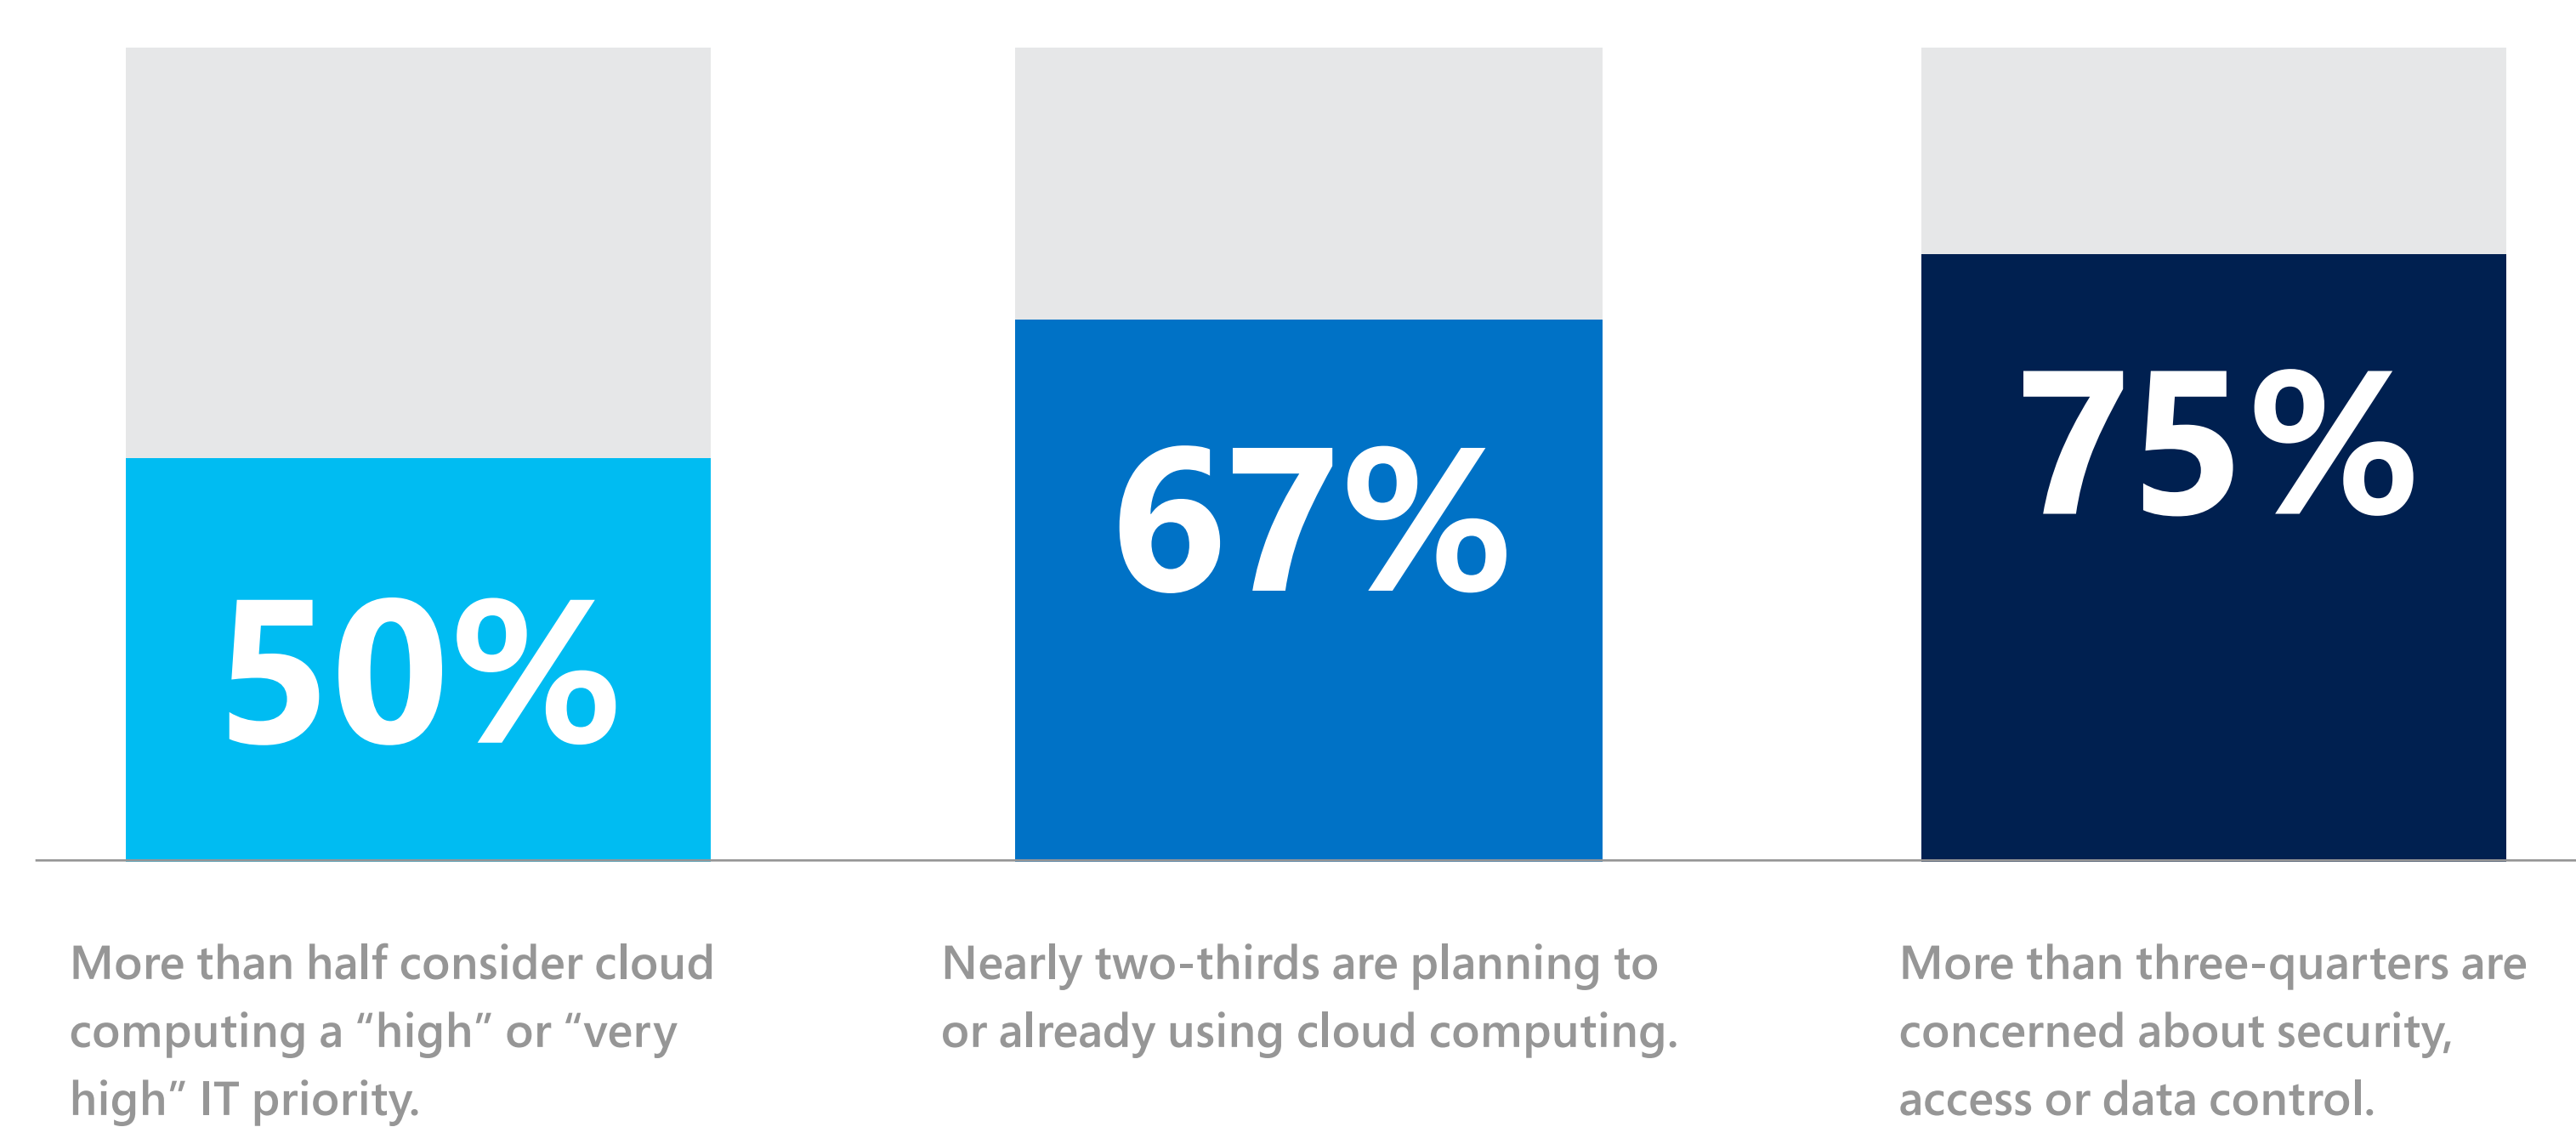

## The Widening Opportunity for Cloud-Skilled IT Professionals

A new study by market intelligence firm IDC reveals global businesses are adopting cloud computing at an escalating rate, with fewer "cloud ready" IT professionals.

Do your skills bridge the cloud skills gap?

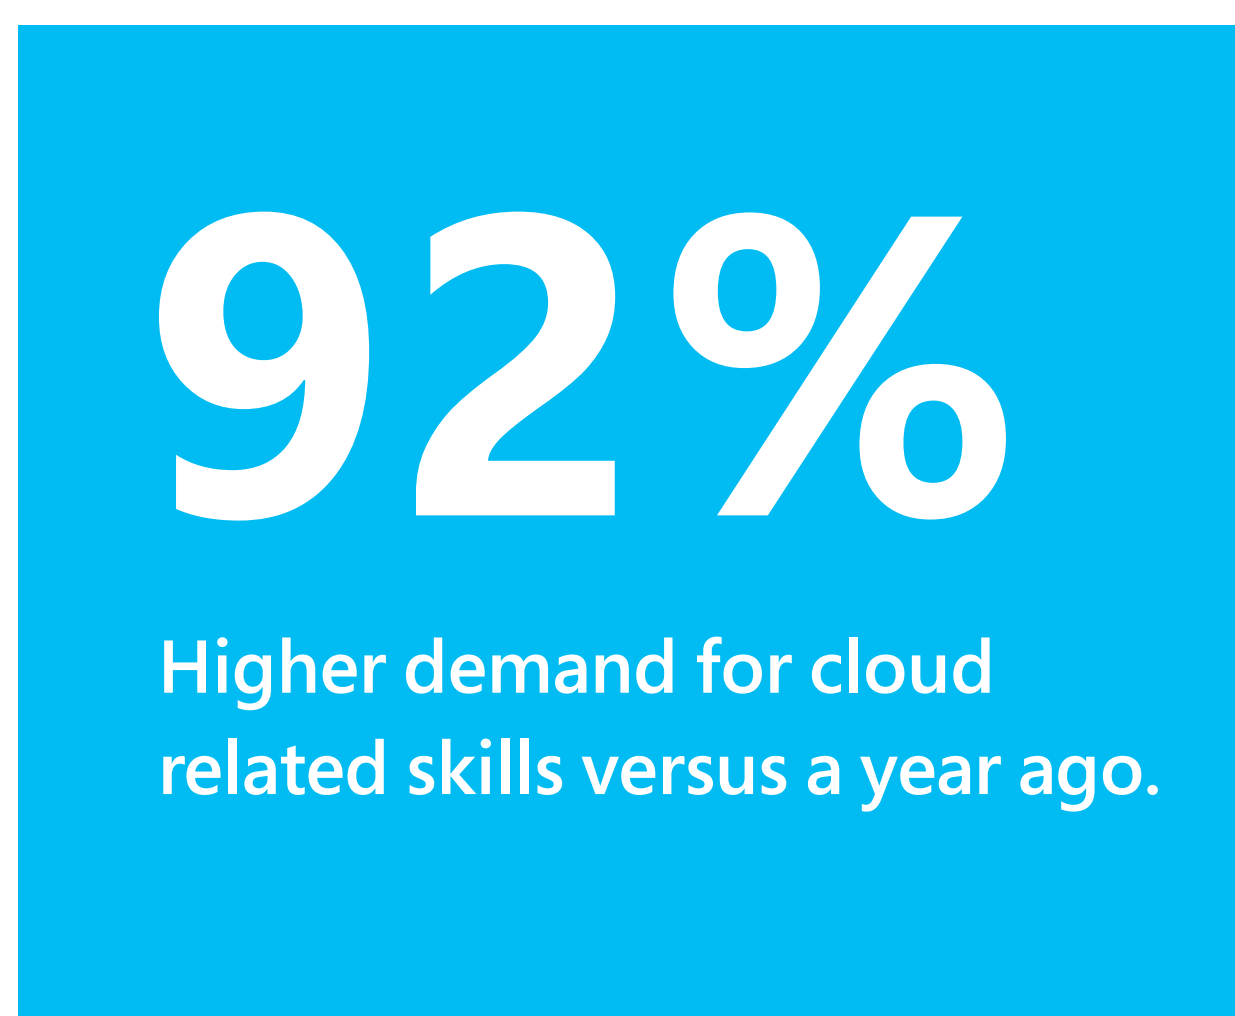

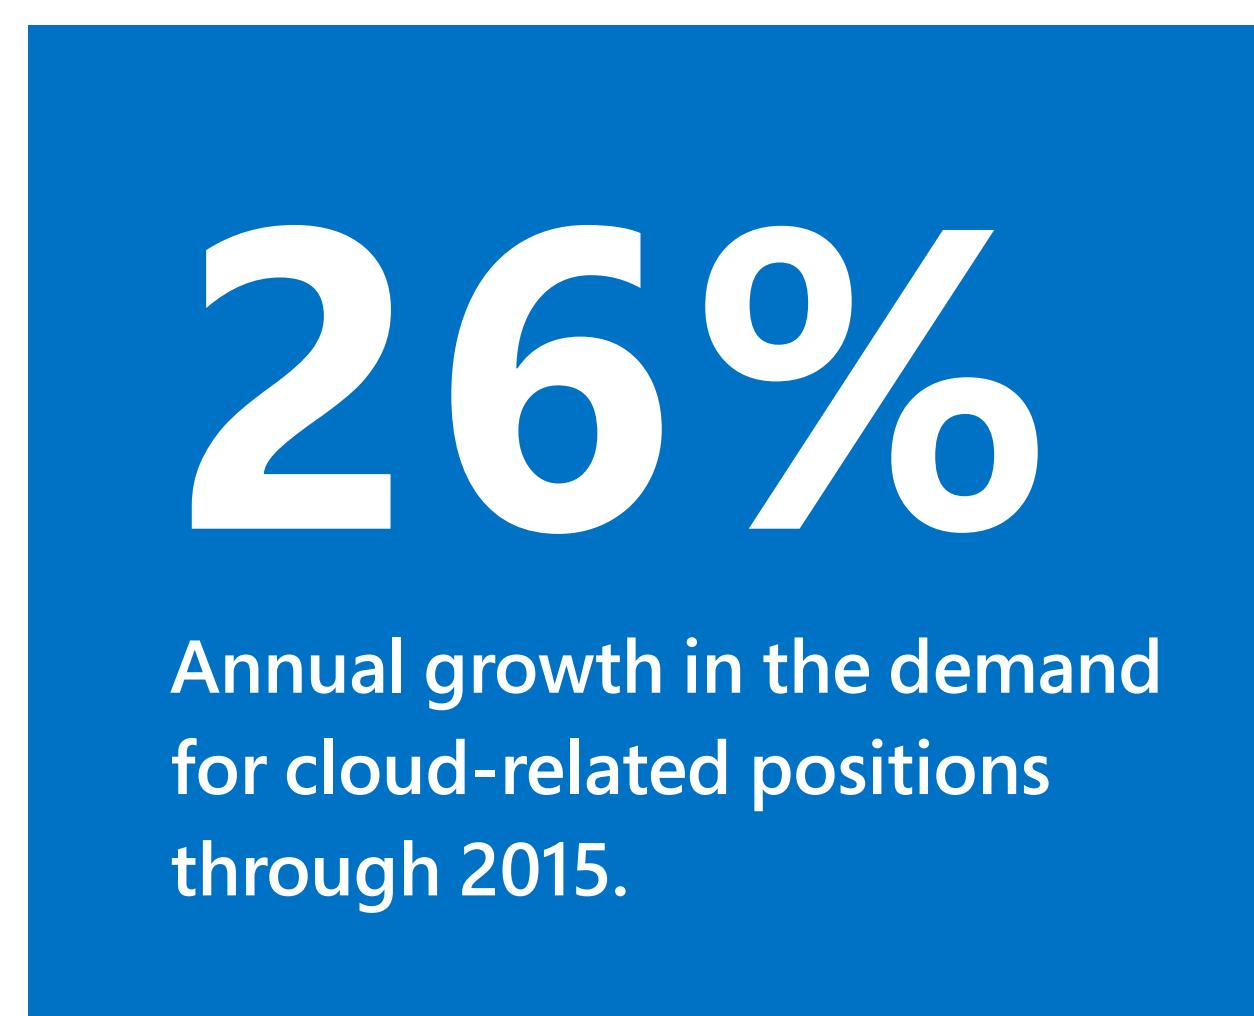

## BUSINESSES ARE MOVING TO THE CLOUD...

• IDC surveyed IT executives and hiring managers at 600 global organizations.

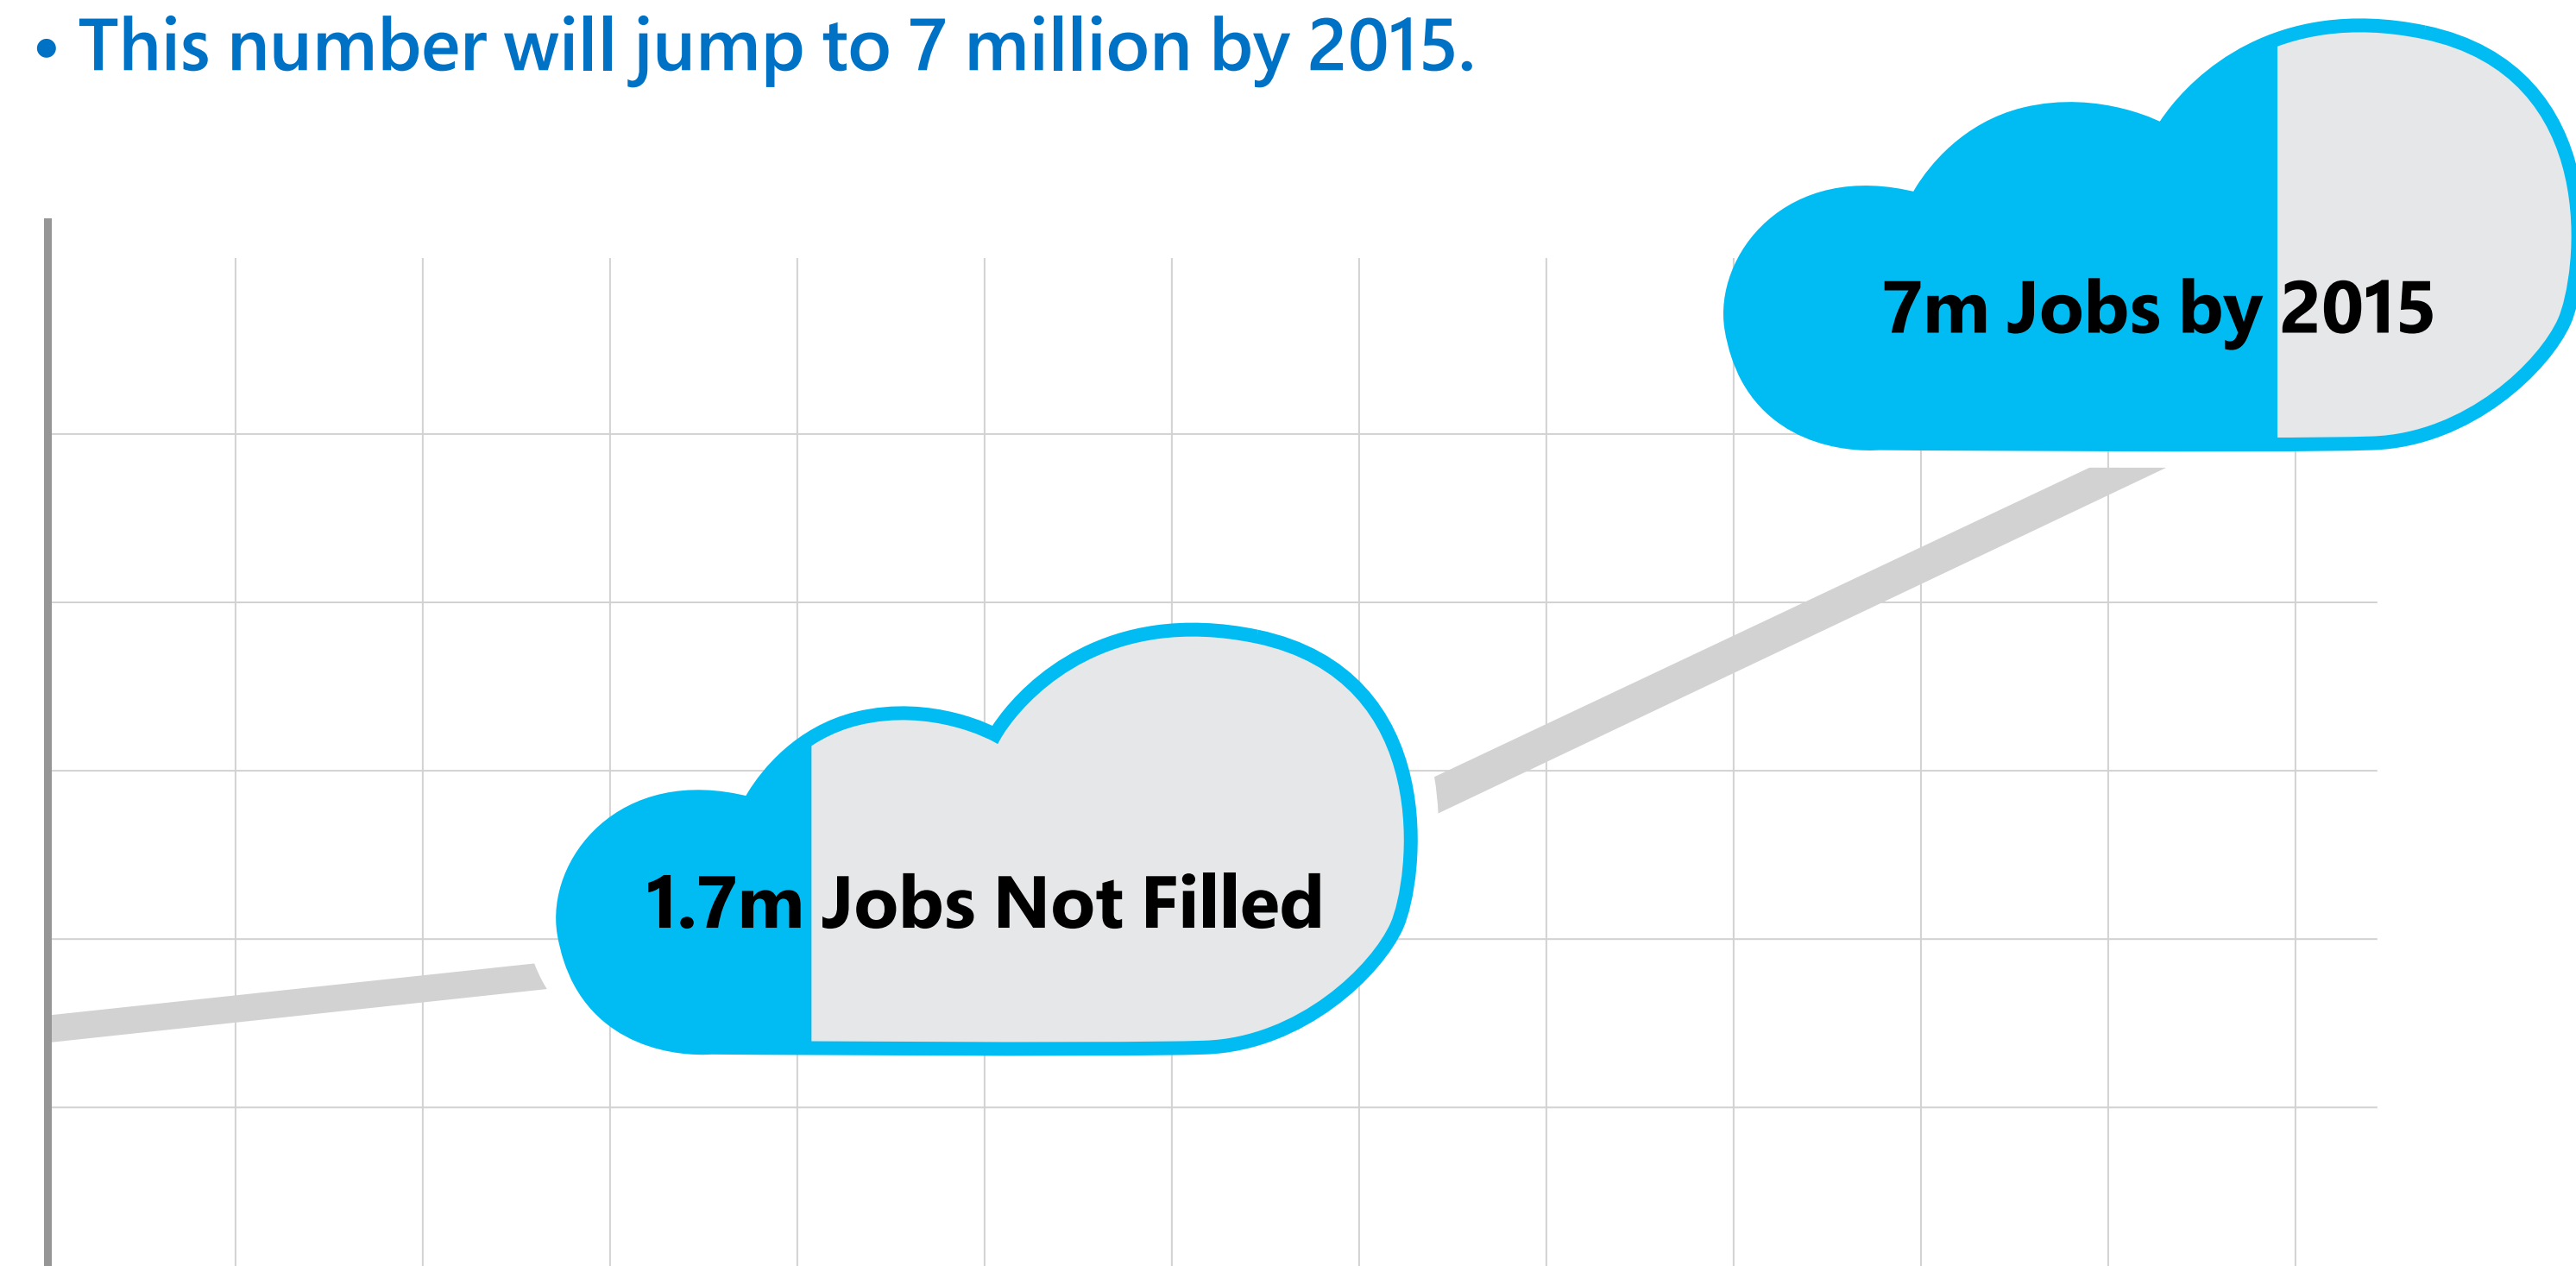

## ...AND SO ARE IT JOBS...

• Cloud-related skills represent virtually all the growth opportunities in IT employment worldwide.

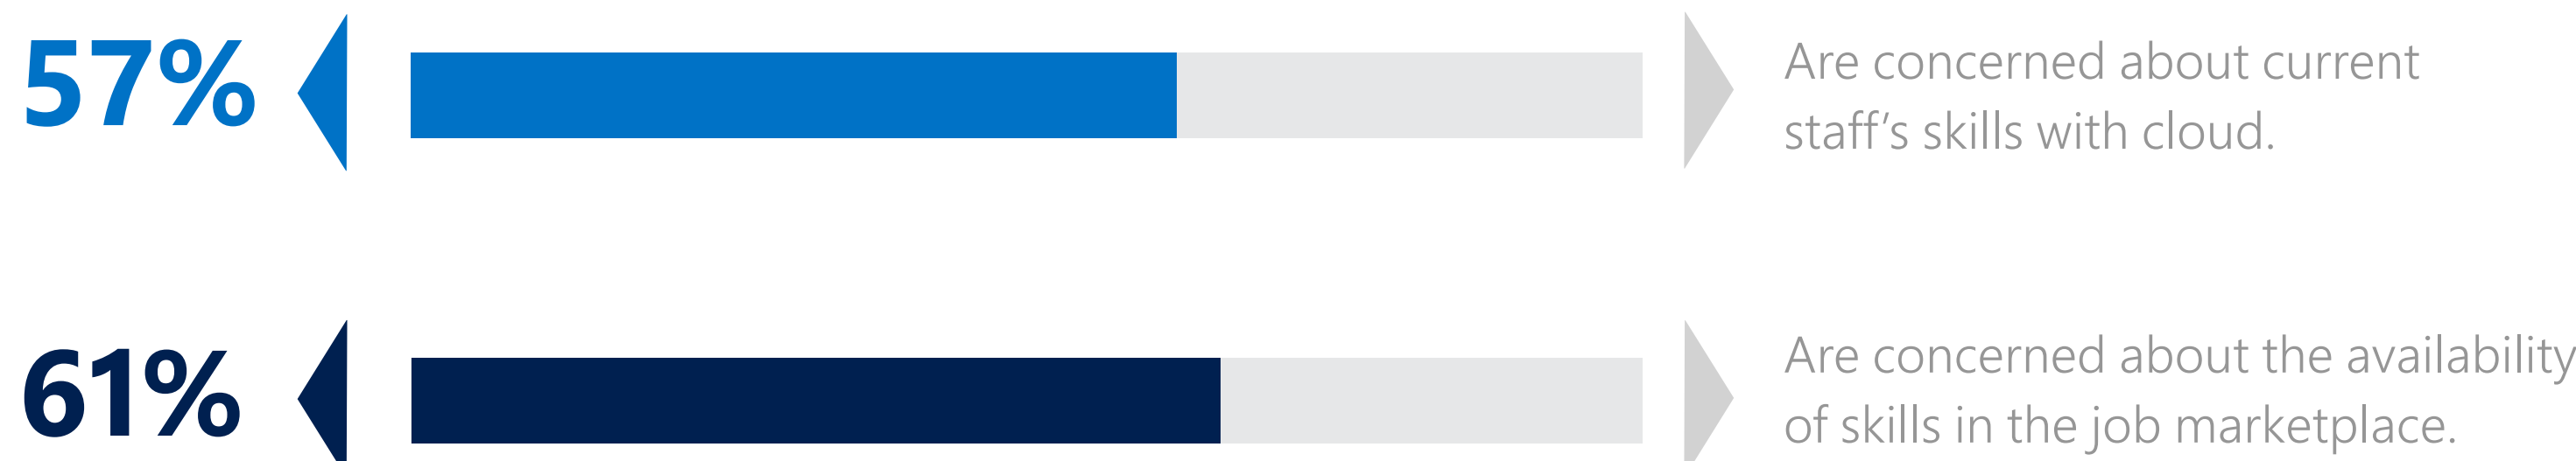

## ...THAT REQUIRE QUALIFIED "CLOUD READY" PROFESSIONALS

• An estimated 1.7 million cloud-related IT jobs cannot be filled.  
• This number will jump to 7 million by 2015.

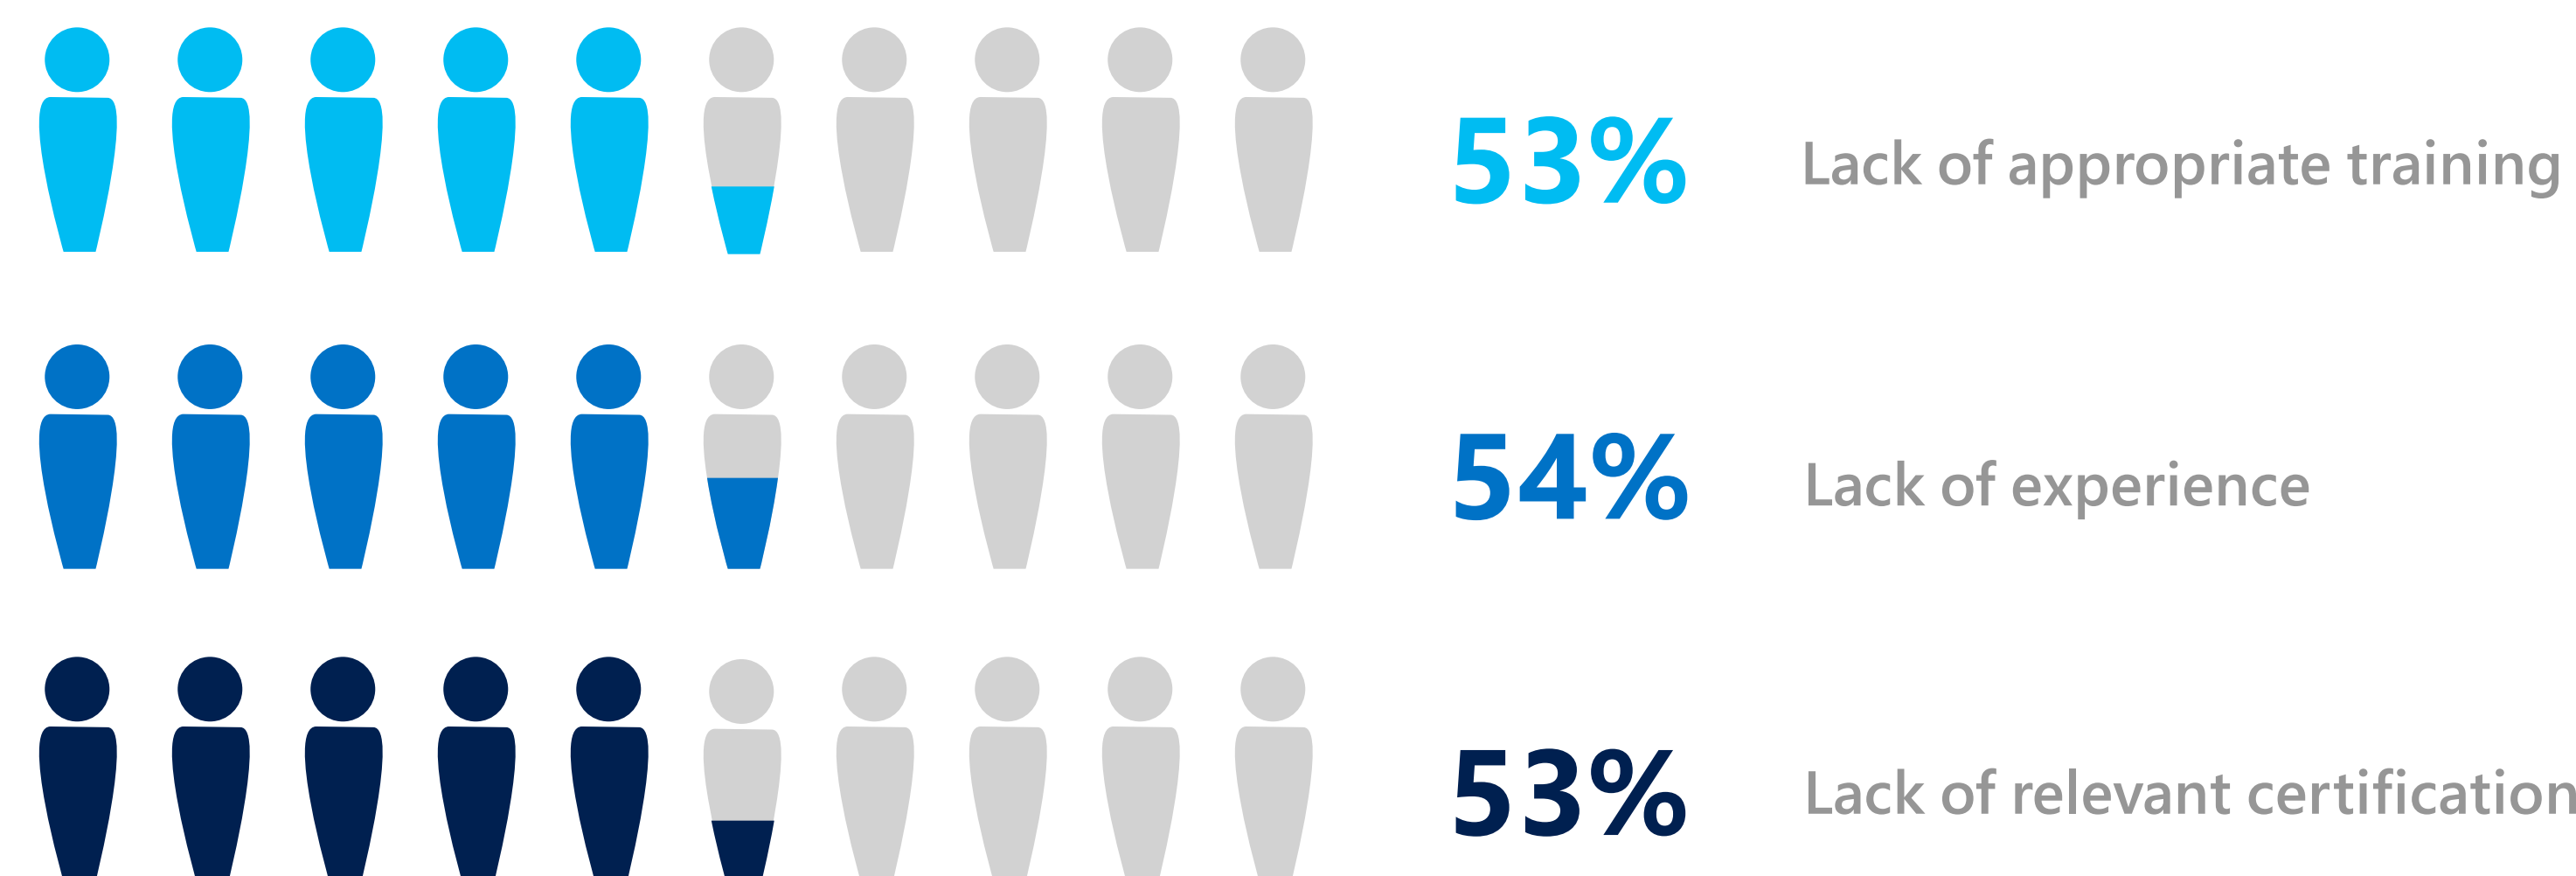

## WHY?

• Hiring managers can't find qualified "cloud-skilled" IT candidates.

Top three reasons cloud computing positions are not filled:

BRIDGE THE CLOUD SKILLS GAP.

Get Trained. Get Certified. **Get Hired.**
